2020 RAMACIOTTI HEALTH INVESTMENT GRANT RECIPIENTS

Ramaciotti Health Investment Grants of up to \$150,000 have been awarded to seven recipients undertaking biomedical research. The grants are awarded to autonomous early career scientists to support health or medical research with a potential path to clinical application within five years. As trustee of the Ramaciotti Foundations, Perpetual is pleased to congratulate all seven recipients.

HEALTH INVESTMENT GRANTS

RECIPIENT	DEPARTMENT	INSTITUTION	PROJECT
Dr Rona Chandrawati	School of Chemical Engineering	University of New South Wales	Preventing vision loss in glaucoma through nitric-oxide-eluting stents
A/Prof Adam Deane	Intensive Care Unit, Royal Melbourne Hospital	Melbourne Health	A learning healthcare system to improve outcomes from intensive care and hospital
