

# Insurance Cover - Occupational Loading Factor Guide

1 March 2025

## Overview

This guide is designed to assist you in understanding the occupational loading factors that apply to Insurance cover you may obtain in Perpetual's Select Superannuation Fund (**Fund**) through Perpetual Select Super Plan. This guide should be read in conjunction with the '*Insurance in your super*' document which forms part of the Product Disclosure Statement of the Fund.

Occupational loading factors are not based on job titles but are determined by qualifications, duties and industry of the occupation.

This guide covers a wide variety of occupations. Any occupations not listed in this guide will have the occupational loading factors rated in accordance with other similar listed occupations.

The table below illustrates the different occupational loading factors that can apply.

Occupational loading factor	Salary Continuance Insurance (SCI)	Total and Permanent Disablement (TPD) Only	Death only	Combined Death and TPD
Professional	0.90	0.90	0.90	0.90
White Collar	1.00	1.00	1.00	1.00
Light Blue Collar	1.50	1.75	1.30	1.50
Blue Collar	2.25	3.40	1.70	2.60
Heavy Blue Collar	3.00	4.00	2.00	3.00

For more information about how the different occupation loading factors are classified, please refer to the table below.

Occupational loading factor	Legend	Description
Professional	P	Professionals, Executives and Senior Management with tertiary qualifications & high incomes
White	W	White collar occupations involving clerical and administrative work in an office environment only
Light Blue	LB	Light manual occupation not classified as white collar and may involve some light manual work
Blue	B	Fully qualified skilled
Heavy Blue	HB	Heavy and unskilled manual workers
Individual Consideration	IC	Further information is needed
Uninsurable	NA	Insurance cover cannot be offered for that occupation.
